ANVIL®

As an effort to provide more accurate data to our customers, we have reviewed PMS codes assigned to the colour. This evaluation resulted in the need of changing 12 PMS's in Anvil EU. The process to assign the PMS codes to the colours was completely subjective in the past, however, recently we have acquired some technical tools that assist us to obtain a closer PMS to the fabric colour standards.

In the Linesheets 2018 Anvil, you will find the new PMS codes already assigned to the colours in the Pantone Chart, to identify these changes, we have added below a table that lists the changes performed, in that table you will see the previous and the updated PMS codes.
